Website construction kit

 [Info](#)

 [Features](#)

 [Stack](#)

 [Components](#)

Card

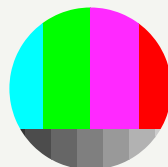

The card component presents content in a structured format with logo, title, description and optional elements like icons, buttons, labels or bullet points.

Card with logo image

Link on the card

Card with logo image – image in circle with link on the entire card.

Card with logo SVG

Link on the card

Card with logo SVG – SVG in circle with link on the entire card.

Card with logo icon

Link on the card

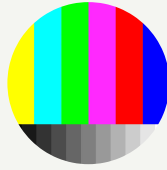

Card with logo icon – icon with link on the entire card.

Card with hexagon

Link on the card

Card with hexagon – logo image in hexagon shape with link on the entire card.

Card with logo link

Link on the logo

[Learn more](#)

Card with logo link – link only on the logo, not on the entire card, when the card contains links or buttons.

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

PDF Export

Every page with PDF export enabled can be downloaded as a print-optimized PDF.

The layout is automatically adjusted for printing – without menu, navigation or interactive elements.

Download PDF

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

RSS Feed

Every page with RSS feed enabled is automatically included in the feed. Subscribers receive new content directly in their RSS reader – without tracking, without algorithm.

Copy RSS feed URL

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

Markdown

Markdown is a simple markup language that allows you to create formatted text using plain text syntax.

This section demonstrates **important Markdown features**: *italic text*, **bold text**, and ***bold-italic text***. You can also insert links and create lists:

- First list item

- Second list item with **emphasis**
- Third list item

Numbered lists work as well:

1. First step
2. Second step
3. Third step

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

Grid

The grid component displays content in a customizable grid layout. Ideal for galleries, portfolios or structured overviews with multiple elements.

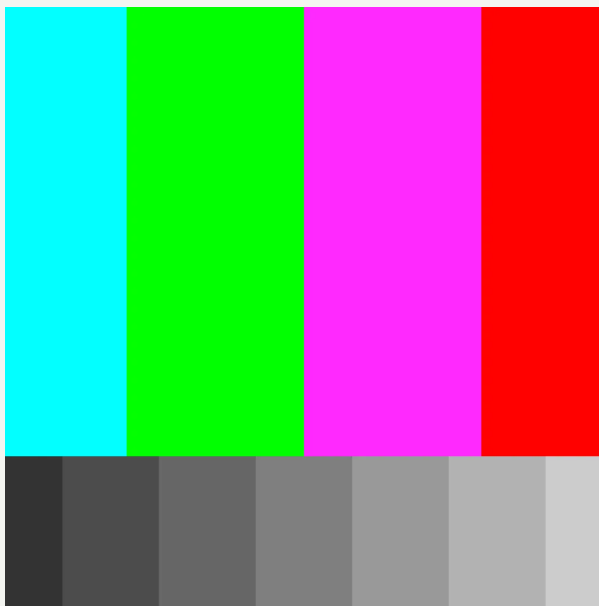

Image landscape

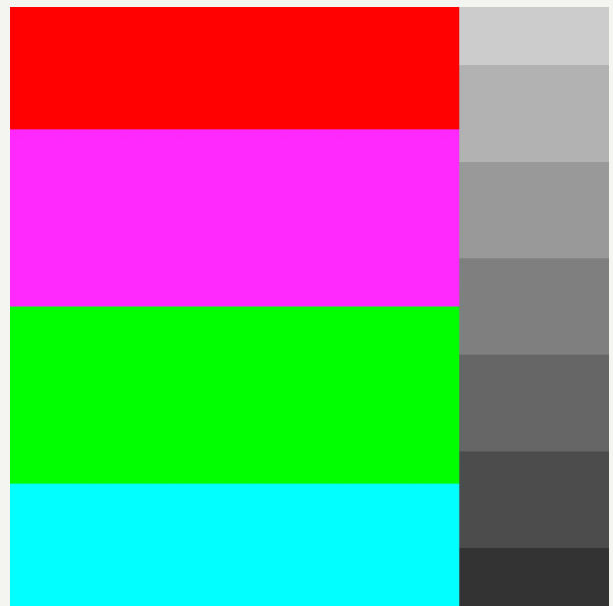

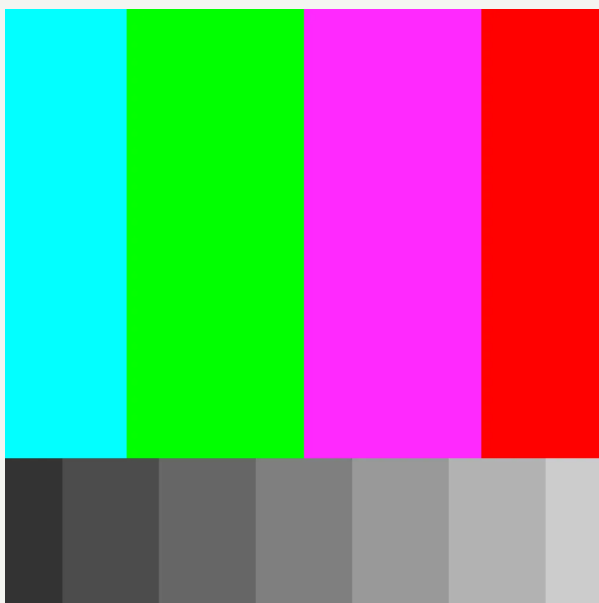

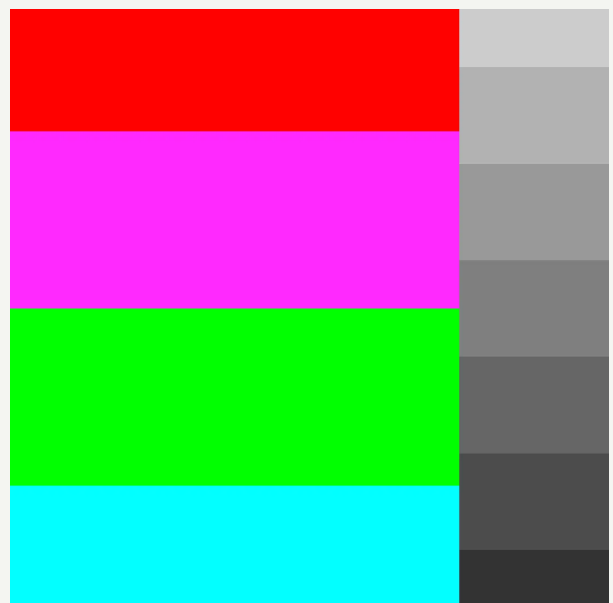

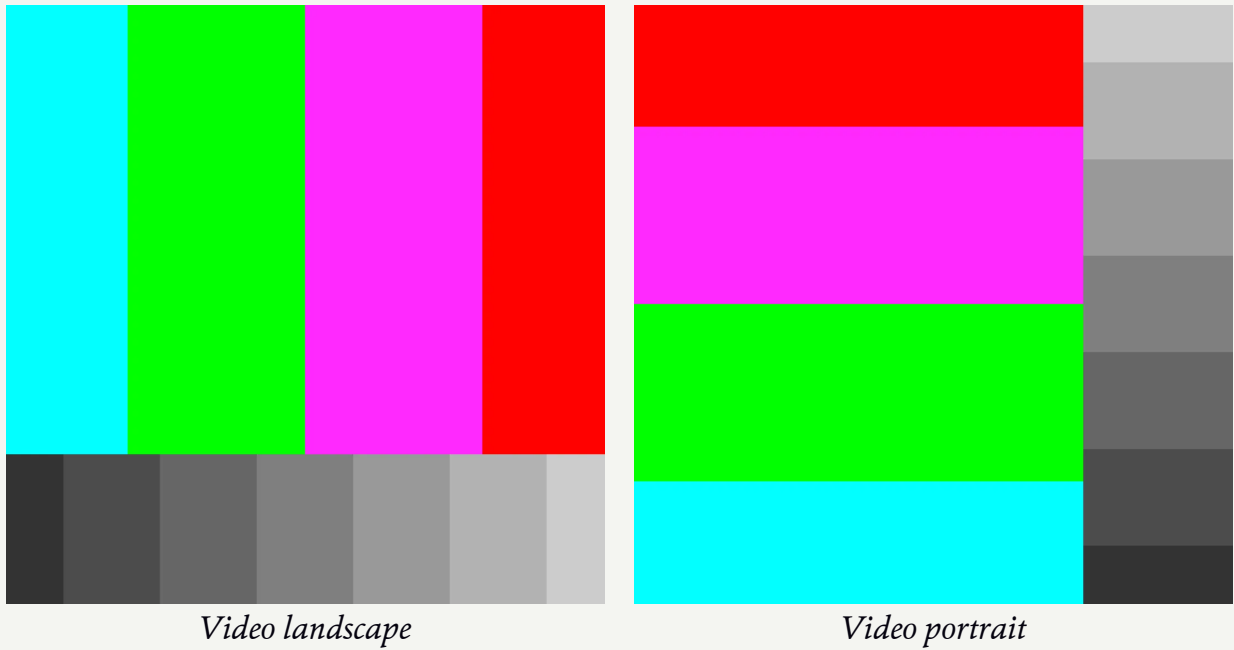

Image portrait

Audio landscape

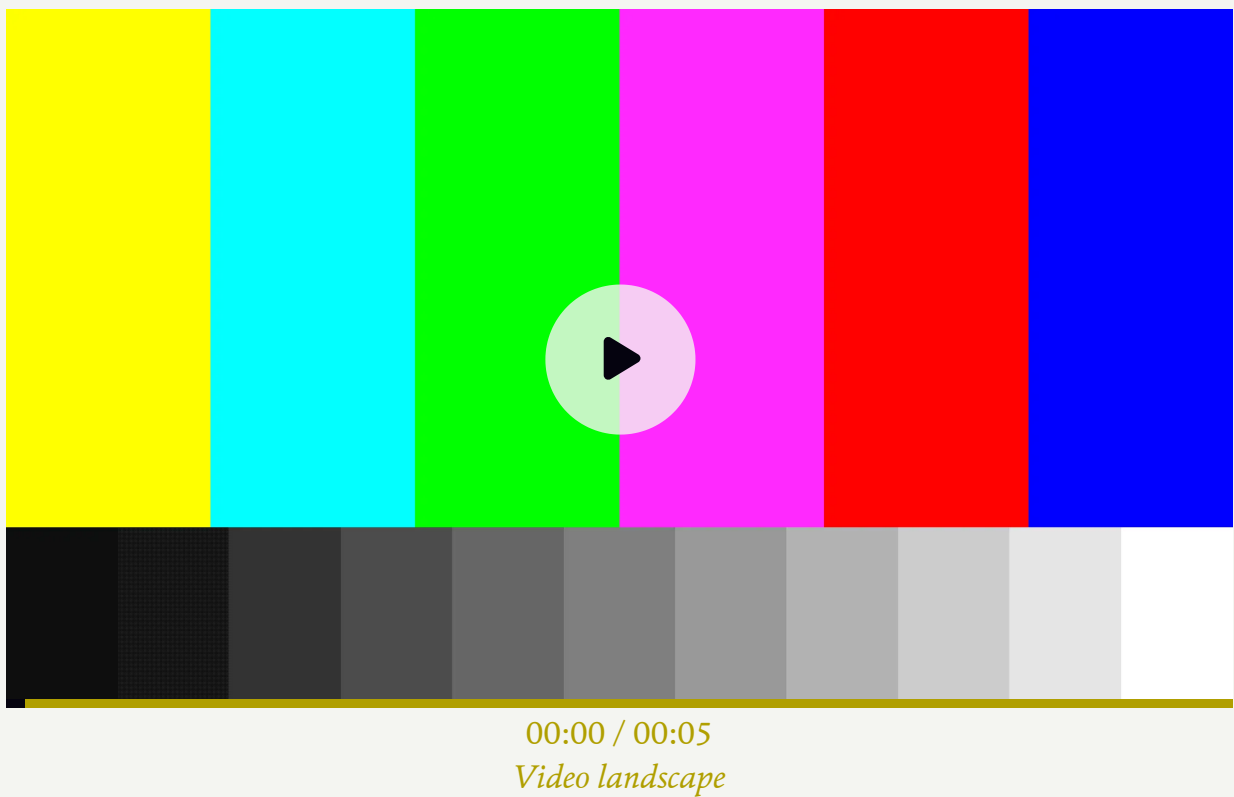

Audio portrait

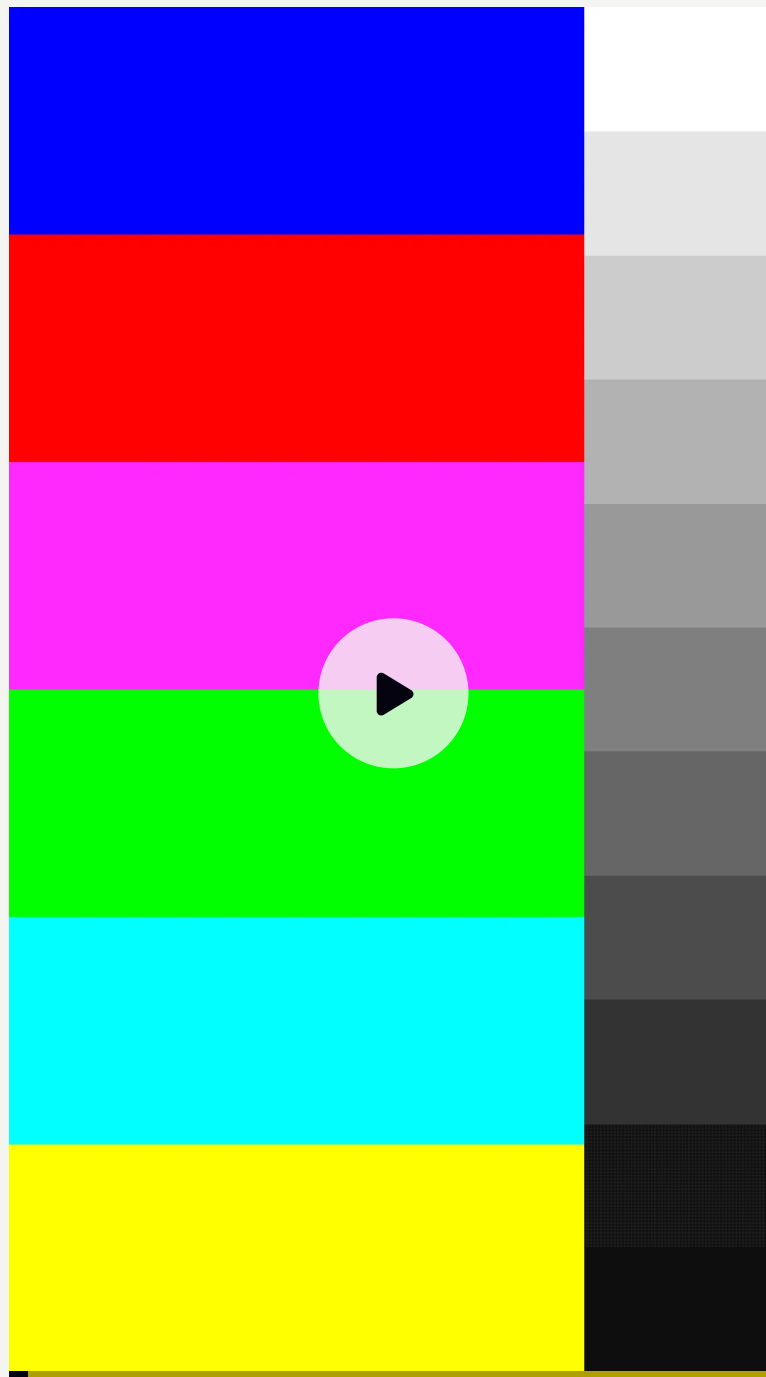

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

Video

The video component supports both portrait and landscape formats. Videos are loaded with a preview image and can be played by the user.

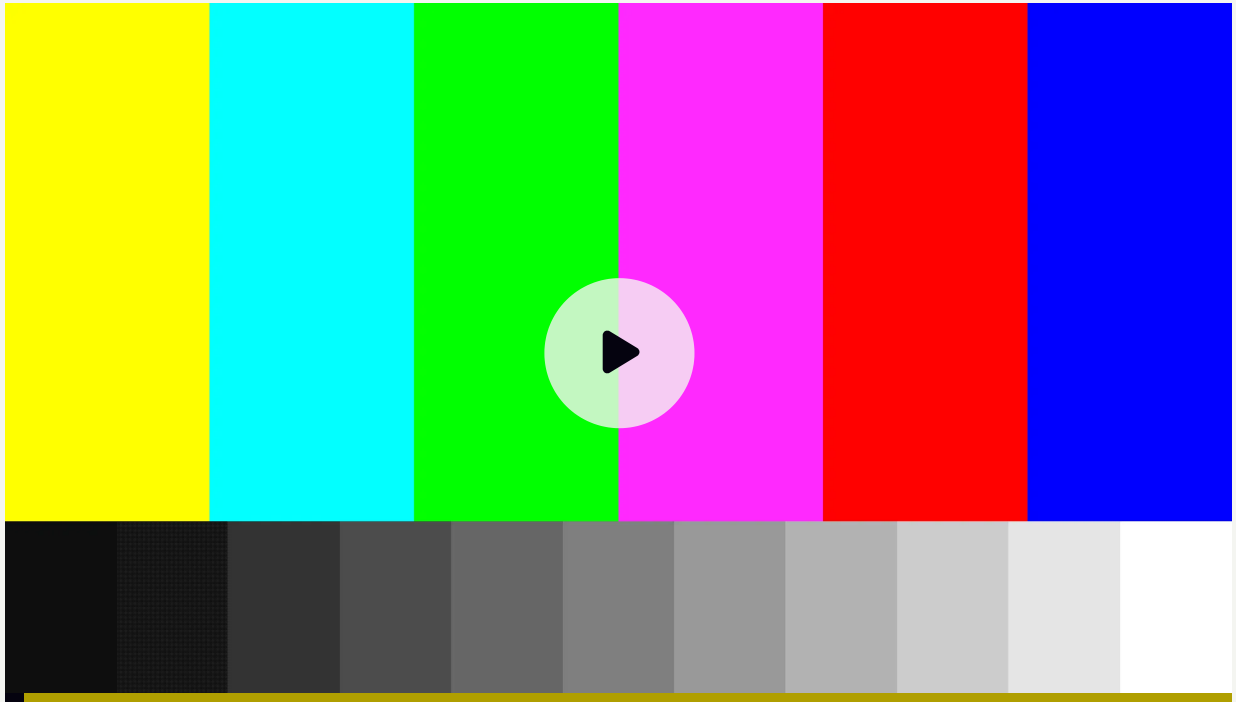

00:00 / 00:05

Video portrait

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

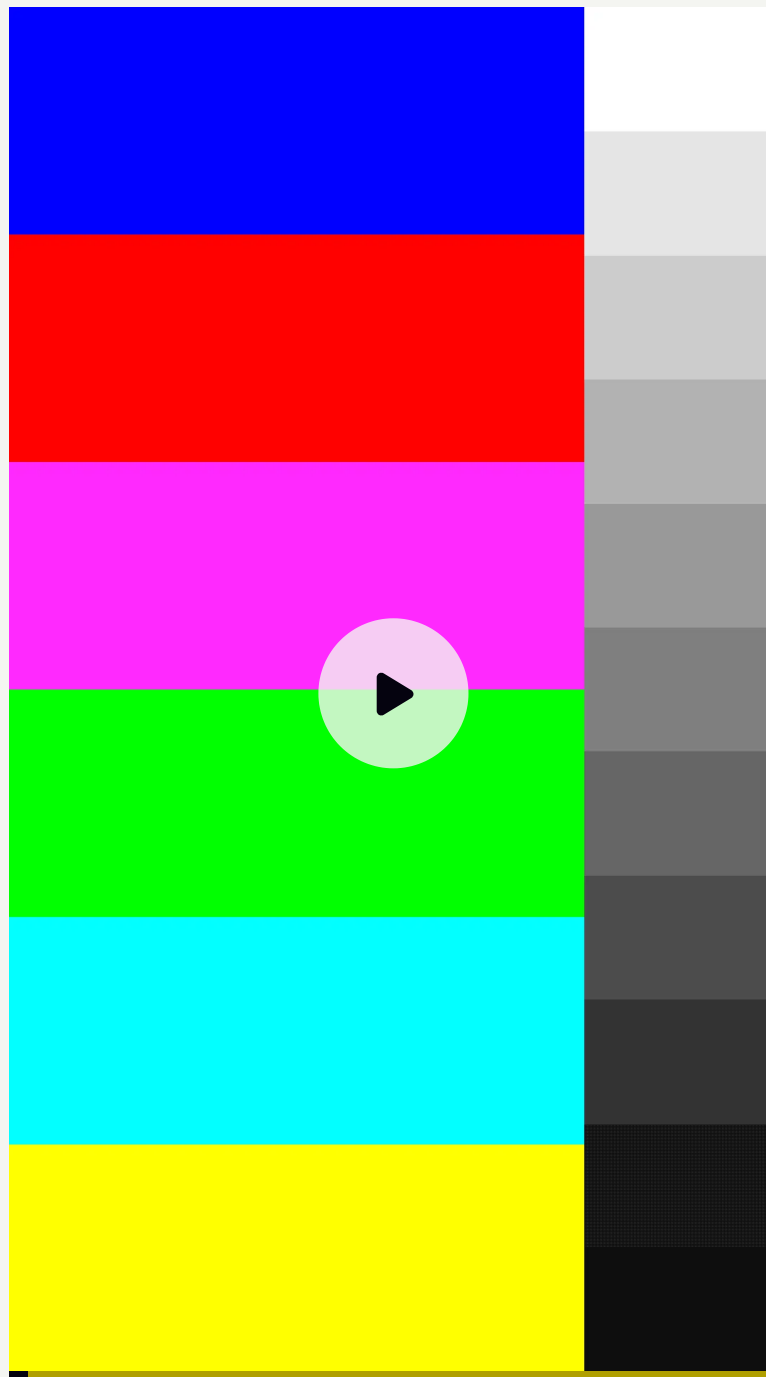

Audio

The audio component displays a preview image with an integrated audio player. Perfect for music, podcasts or sound design presentations.

00:00 / 00:06

Audio landscape

00:00 / 00:06

Audio portrait

00:00 / 00:06

Audio without image with progress bar

00:00 / 00:06

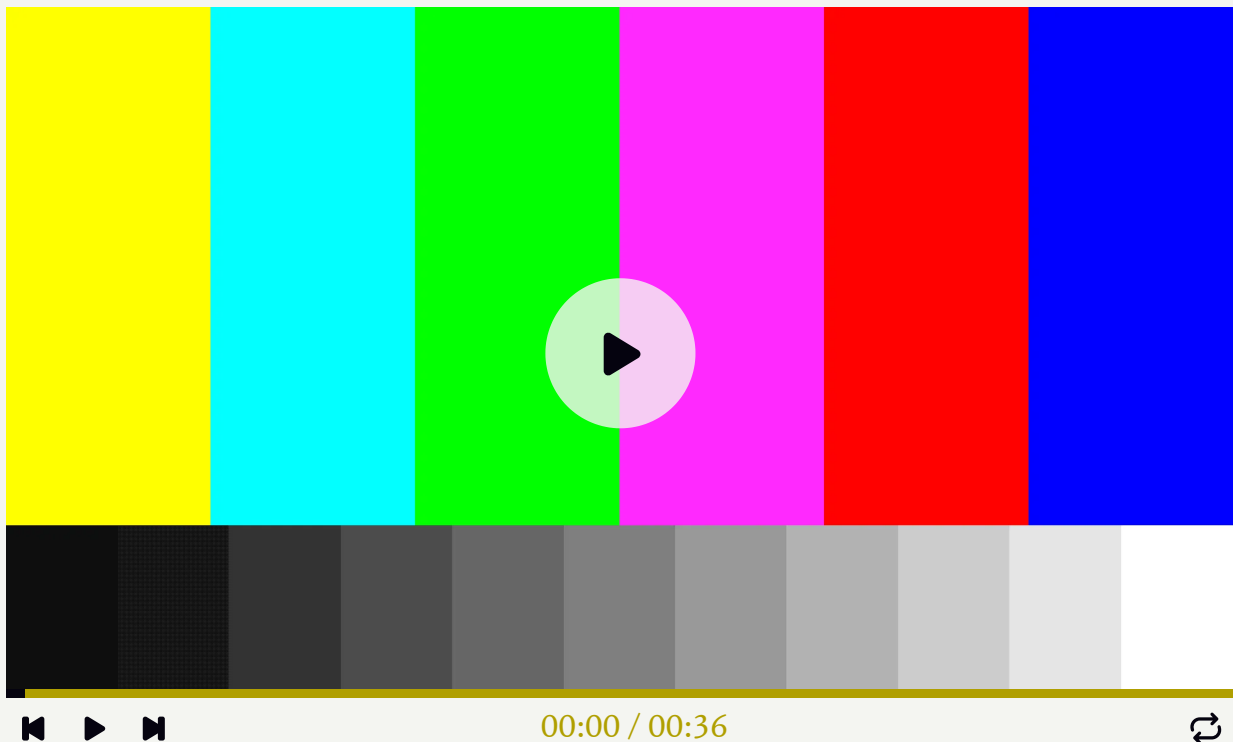

Audio without image without progress bar

Any Markdown text can be placed between the components – allowing content and

interactive elements to be combined flexibly.

Playlist

The playlist component displays a list of audio tracks with an optional preview image.
Perfect for albums, podcasts or music collections.

Example Playlist

Six tracks with alternating preview images, progress display and track numbering

	1. Track 1	00:06
	2. Track 2	00:06
	3. Track 3	00:06
	4. Track 4	00:06
	5. Track 5	00:06
	6. Track 6	00:06

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

Image

The image component displays optimized images in various formats. Supports responsive display and automatic image optimization.

Image landscape

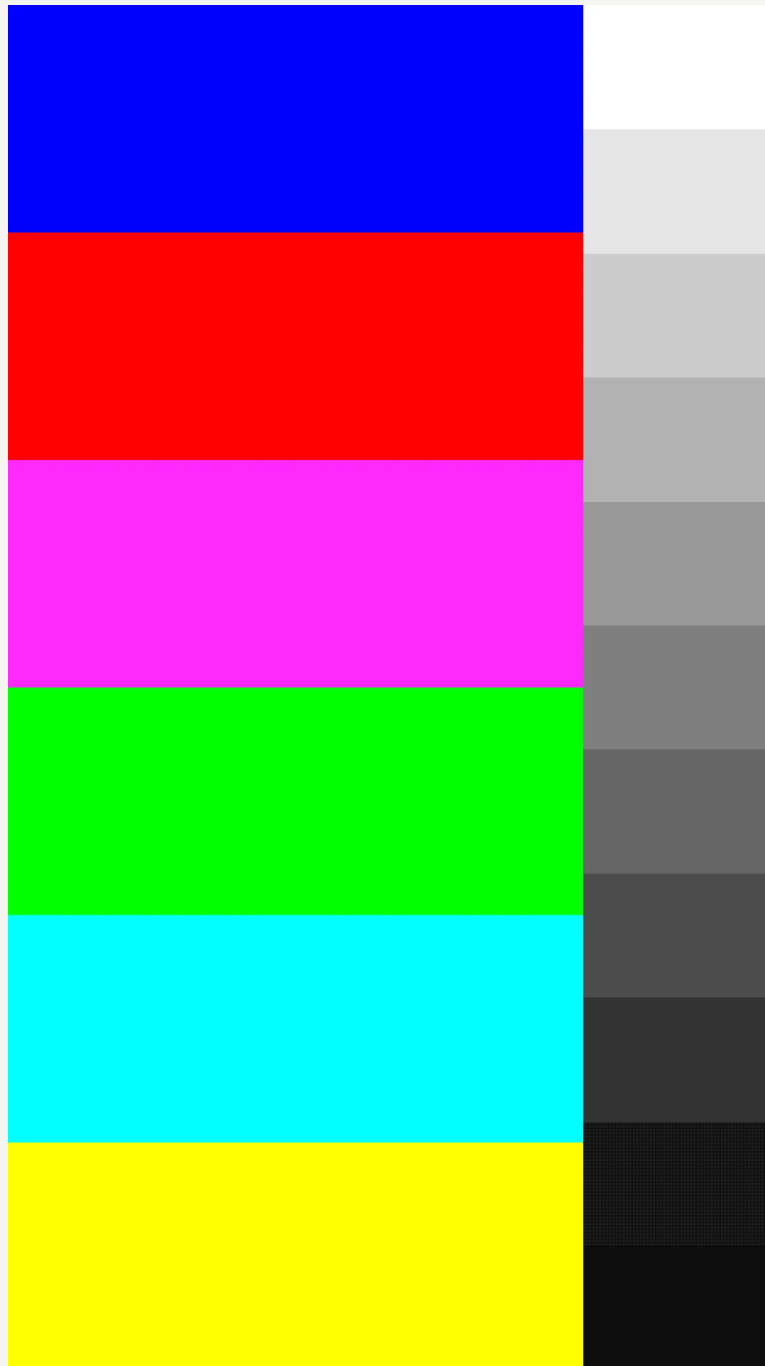

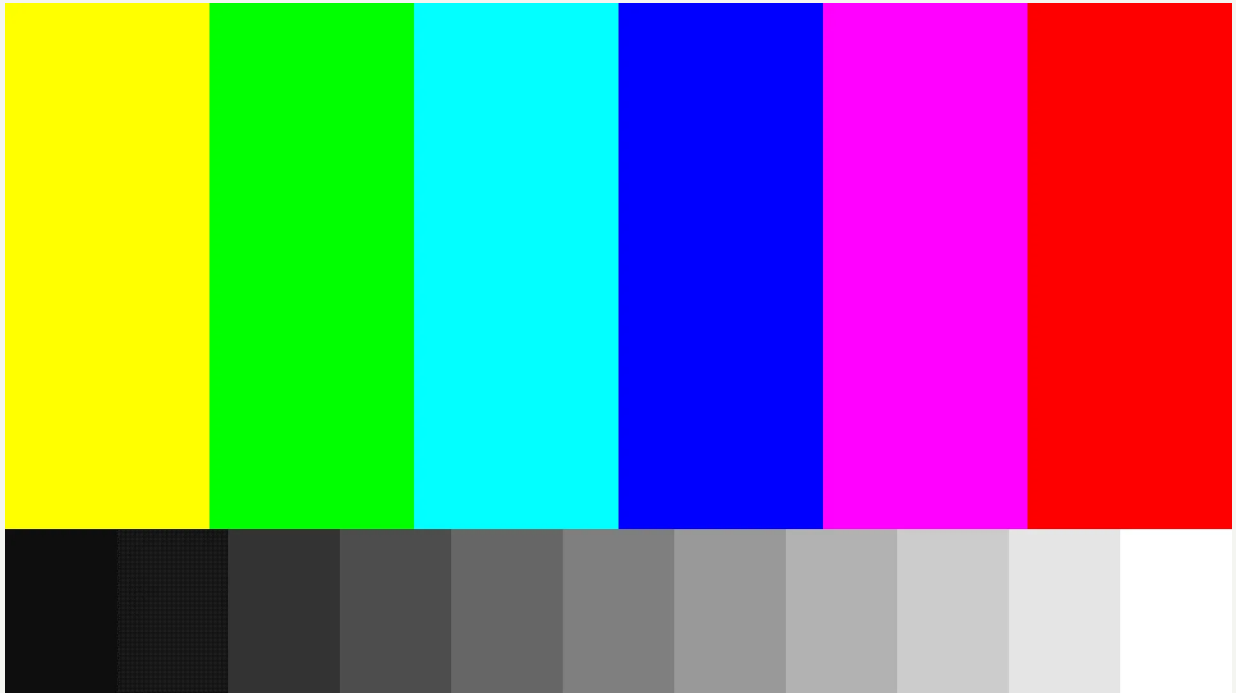

Image portrait

Any Markdown text can be placed between the components – allowing content and interactive elements to be combined flexibly.

Slideshow

The slideshow component displays multiple images in an interactive slideshow with swipe gestures, keyboard navigation and dot indicators.
